Recommendation for Haik Dettmann

To whom it may concern,

Haik Dettmann is part of the UX and Design Team at Kloeckner.i. He joined our company in 2018 as a User Experience Designer responsible for the optimization and further development of our Industry Portal and E-Commerce Platform.

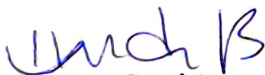

Haik is a reliable, enthusiastic and proactive designer. He took over responsibility for several projects and completed these always in a timely and professional manner. Haik can quickly familiarize himself with new topics and embraces change with a positive attitude.

Haik took ownership of our AB Testing tool, implementing a new testing process in alignment with product management and business performance. Additionally, he supported the implementation of our Design System and introduced Figma to our team.

Haik is an outstanding team player. It has been a pleasure to be his manager over the past two years. I wish Haik all the best for his future career. I am sure he will be an asset to any company he decides to work for.

If you wish to know more details, please don't hesitate to contact me.

Sincerely,

Mayra De Ita Bautista

Head of UX & Design
